

Cord Caddy Gets You Off The Hook!

Cord Caddy™ cord management system helps you release the hours – and dollars – your hospital has tied up in inefficient cable hooks. Remember: Every shift without Cord Caddy costs you more!

Benefits are Clear	Hooks	Cord Caddy™
Improve safety	❌ Cords fall to the floor, representing a safety hazard.	✅ Cords stay off the floor, reducing tripping hazards.
Save valuable prepping and treatment time	❌ Delay patient assessment and treatment; waste time untangling cords.	✅ Quickly access cords needed for faster patient assessment.
Improve infection control	❌ Spread germs, as cords are dragged across the floor.	✅ Reduce spread of germs with cords off the floor; easily clean organized cords.
Store and manage cords individually	❌ Difficult to identify and untangle cords.	✅ Easily and instantly identify, manage and access specific cords needed.
Save money	❌ Cords on floor break, incurring significant, unnecessary costs.	✅ Save thousands of dollars in damaged cord replacement costs.
Easy to use	❌ Cords are tangled and disorganized.	✅ Intuitive design and unique, one-handed cord release.
Improve room appearance	❌ Dangling cords compromise room appearance and perception of care.	✅ Enhance hospital image with wrapped, separated and neatly organized cords.
Improve staff satisfaction and retention	❌ Waste time, create frustration and interfere with patient care.	✅ Eliminate aggravation while keeping your team patient-focused.

“Cord Caddy improves efficiency and productivity by reducing the time it takes to untangle cords. Cord damage is now rare, reducing costs.”
