Pillow Speaker and
Cord Organizer

Cord Caddies directly impact patient, staff, and visitor safety in hospitals by:

- Minimizing fall risks associated with tripping accidents from cords not properly secured/stored.
- Allowing for best practices with a dedicated place for cords to be disinfected and stored between patients.

Cord Caddies save time, money and resources lost with accidents:

- Fewer Workers' Compensation claims
- Reduced accident investigation time
- Less legal fees
- Decreased administrative costs
- Reduced hospital liability

**Every shift without Cord Caddy is an increase in risk.
Prevent accidents and infections with proactive risk reduction
by integrating Cord Caddy functionality into your patient rooms.**
