

Improve Hygiene, Infection Control & Reduce Tripping Hazards

Introducing Phone Caddy!

Your hospital invests significant time, effort and money to improve room hygiene and infection control, only to have the phone cord in each and every room lay on the floor. From there, it is dragged across the bed and handled by patients and staff.

Now Evolution Medical, the people that introduced Cord Caddy, bring you Phone Caddy. The simple, easy to use, affordable solution to this overlooked source of germs and contamination.

- ✓ *Keep Phone Cords off the Floor*
- ✓ *Improve Hygiene and Infection Control*
- ✓ *Reduce Tripping Hazards*
- ✓ *Improve Patient Experience and Room Appearance*
- ✓ *Easy to Use with Convenient One-Handed Release*

Unmanaged phone cords can contribute to contamination and tripping accidents.

Phone Caddy is your affordable, easy-to-use solution.

Phone Caddy is from Evolution Medical Products, the people that brought you Cord Caddy—the monitor cord management system that pays for itself by reducing cord replacement costs.
